SUMMARY

Frontend engineer with a keen eye for UI/UX of web apps I have over 2 years of experience building robust, scalable and pixel perfect web applications. Fully proficient in languages like Javascript, Typescript, and Frontend frameworks like ReactJs, NextJS.

PROFESSIONAL EXPERIENCE

Binaryveda Software Solutions - Frontend Developer
July 2021 - Nov 2023 (2.5 years)

- Spearheaded the development of web applications, translating design wireframes into functional web components using ReactJS, NextJS, Javascript, Typescript & CSS frameworks.
- Collaborated with backend developers and designers, fostering cross-functional teamwork. Leading to streamlined workflows and accelerated project completion in limited time sprints.
- Implemented mobile-first design, ensuring app responsiveness and user-friendliness. This approach ensured a consistent and user-friendly experience across devices and boosted the accessibility and usability of our web apps.
- Cultivated a collaborative environment by initiating tech sessions within the team which helped junior developers gain out of the box knowledge other than the daily responsibilities.
- Worked on multiple projects and modules with concurrent deadlines, resulting in improved time management, organizational skills and ability to prioritize tasks and workload.
- Played a key role in driving the startup's rapid growth, contributing to a tenfold expansion of its reach and impact.

TECHNICAL SKILLS

- **Languages :** Javascript, Typescript, HTML, CSS
- **Frontend Frameworks :** ReactJS, NextJs
- **CSS Frameworks :** Material UI, Tailwind CSS, Chakra UI , Bootstrap, SCSS.
- **Web Animations library :** Framer Motion, Gsap, 3JS.
- **State management tool :** Redux, React query.
- **Version control tools :** Git, GitHub, GitLab, Bitbucket.
- **Testing libraries :** Jest, Enzyme, RTL.
- **Software Tools :** ClickUp, Jira, Firebase, Supabase, AWS, Microsoft Azure, Docker.
- Integrating **RESTFul** api's in frontend to fetch data from backend.
- Implementing **GraphQL** services to query and mutate backend data in frontend.

EDUCATION

- M.Sc. Information Technology - CGPA : 9.87   Jun 2019 - Jun 2021

VG Vaze Kelkar College, Mulund - University of Mumbai

- B.Sc. Information Technology   Jun 2016 - Mar 2019

J.V.M's Mehta College of Science - University of Mumbai
